WHY CHOOSE US

Export Expertise

Decades in international trade with full compliance, smooth logistics, and global standards for seamless shipments.

Tailored Innovation

Custom development in GSM, sizes, finishes, and coatings to meet exact specs.

Unmatched Consistency

Rigorous quality controls deliver uniform performance batch after batch for scalable operations.

ABOUT US

Zelleno Biopack specializes in paper and paper-based packaging for food service, FMCG, retail, and hospitality brands. With an India-wide network, we ensure quality, consistency, and eco-friendly solutions driven by manufacturing, ethical sourcing and innovation.

MG White Paper

MG White Paper (MG Poster White) features smooth surfaces and lightweight for superior handling. Ideal for gift wrapping, food wraps, ARSR soap protection, and sublimation transfers. Ensures pint quality, food-grade safety, and easy folding from sustainable fibers.

Foodwrap Paper

MG Poster White **35 – 50 GSM** is widely used for **shawarma and burger wrapping** applications. Manufactured to meet **food-grade standards**, it offers the **ideal thickness** for handling hot food while ensuring **effective grease resistance**. The paper helps maintain **hygiene, freshness, and visual appeal**, making it suitable for direct food contact and high-volume food service operations.

ARSR

ARSR Paper **50 GSM** is ideally suited for **soap wrapping applications**. Its **optimal thickness, smooth surface finish, and moisture-resistant properties** ensure effective protection of soap bars from **dust, humidity, and external contaminants**. The paper offers **excellent print quality**, making it suitable for **branding, labeling, and decorative packaging**, while maintaining product integrity throughout storage and transit.

Sublimation

Sublimation Paper (**30 GSM and above**) is primarily used for **textile printing applications**. Designed for **heat press transfer**, it enables the precise transfer of **vibrant, high-resolution designs** onto a wide range of fabrics. Ideal for **garments, home textiles, and sportswear**, this paper ensures **sharp image clarity, excellent ink release**, and consistent color reproduction, making it suitable for both commercial and industrial printing operations.

MG Color Paper

MG Color Paper (MG Poster Colour) offers vibrant colors for flexibility. Perfect for **tassels, honeycomb decorations, garlands, and party streamers**. Delivers consistent vibrancy, easy cutting/shaping for events and celebrations.

Writing / Printing Paper

We offer paper stocks in both **sheet and reel formats**, with the capability to **indent directly with mills** as per customer specifications. Our papers are widely accepted by **leading paper converters**, reflecting consistent quality and reliable performance.

These papers are suitable for **offset and digital printing**, and are commonly used for **books, notebooks, magazines, newspapers, brochures, catalogues, calendars, diaries, stationery, invitations, and commercial print applications**.

Kraft Paper (MG/MF)

Kraft Paper is valued for its **strength and versatility** across **industrial and commercial applications**. It is widely used for **packing, wrapping, bundling, void filling**, and as a **load binder for palletized goods**. Additionally, it serves as **protective floor covering, paint masking, and pallet or skid covering**. A proven packaging material, Kraft Paper remains a reliable solution for protection and durability in global supply chains.

Packaging Board

Our Packaging Board range includes **SBS, FBB, Duplex Board, Grey Board, and Kappa Board**, designed for strength, printability, and reliable protection. Suitable for food, FMCG, cosmetics, pharma, gifting, and industrial packaging, these boards offer excellent stiffness, smooth surfaces, and easy conversion. Available in multiple GSM and thickness options to meet diverse packaging needs.

Speciality Grades

Our Speciality Grade Papers, including **Greaseproof Paper and Baking Paper** are designed for superior oil and moisture resistance. They ensure safe food contact, non-stick performance, and consistent heat resistance, making them ideal for baking, cooking, and food wrapping applications. Crafted for reliability, hygiene, and ease of use in professional and home kitchens.

Tissue Paper

Our Tissue Paper Export Range is manufactured using **virgin pulp, recycled fiber, and bamboo-based** raw materials, offering flexibility to meet diverse market and sustainability requirements. Designed for softness, strength, absorbency, and consistent quality, these tissues are suitable for toilet, facial, napkin, and kitchen applications. Reliable specifications and global compliance make them ideal for international markets.

Paper Bag

Our **paper bags** are not only reusable but also **recyclable, biodegradable, and environmentally friendly**. Made from wood pulp, just like newspapers, magazines, or books, they can be recycled and transformed into new paper products, contributing to a circular economy. Affordable, practical, and versatile, paper bags have become a popular choice among consumers. They are widely used in **schools, malls, offices, and grocery stores**, available in **custom sizes** to suit customer preferences.

Disposable Packaging

Our Disposable Paper Packaging range includes **paper cups, burger boxes, pizza boxes, food trays, and takeaway containers**, designed for safe and convenient food service use. Made from food-grade, sturdy paperboard, these products offer excellent insulation, grease resistance, and leak protection. Ideal for QSRs, cafés, restaurants, and delivery platforms.

ZELLENO BIOPACK

India's trusted export partner for sustainable paper packaging, engineered for global compliance, precision, and premium performance.
